

(JUNIOR) PROJECT MANAGER IN DIGITAL HEALTHCARE

Location:	Paris & Zurich
Start:	October / November
Contract:	12 months VIE; continuation possibility
Application:	English, German or French to info.ch@troisprime.com
Website:	www.troisprime.ch

Who we are:

Trois Prime is a digital healthcare agency which works with the world's biggest pharmaceutical companies. We deliver creative and engaging communication, marketing, simulation and education tools based on the latest technologies. We take an integrated, multi-channel and innovative approach to client engagements and we work across a wide variety of therapy areas. We provide our services nationally and internationally with headquarters located in Paris:

- Medical writing
- Health mobile apps
- Video production
- Medical virtual reality
- Event organization (symposium, congresses, conferences, etc.)
- Branding & creative agency services

Our end-users are patients, healthcare professionals, med'reps or pharma marketing. Trois Prime Switzerland is based in Zurich, has a start-up spirit and all members share a diverse range of responsibilities and are empowered to contribute their unique creative outlook to all aspects of business development and project production.

What we offer:

You will be at our HQ in Paris for two months to get trained; you will work in close association with the Swiss Project Manager and the HQ teams to gain insights in the 3Prime world. After the training in Paris you will be in the offices in Zurich, together with the Swiss Country Manager. The Swiss entity has been founded recently, so you will be one of the first movers joining the team and contributing to the success of it.

Your mission will be to help establishing our office in Switzerland, building a local client portfolio and working at expanding the Trois Prime network in the country. Next to the mission of client acquisition you will work on pitches and are responsible for customer relationship management, always in close collaboration with the local and international team.

What you offer:

- Bilingual French/English or German/English, trilingual is a plus!
- University degree in medical / pharmaceutical or marketing area
- Work experience in project management
- Pharmaceutical industry knowledge
- Strong personality with great interpersonal communication & networking skills
- Tech-savvy, you like the mix of technology & health
- Entrepreneurial spirit
- Flexibility and eagerness to travel
